THE American Sporting Manual seems to be a necessity.

For that reason alone it is published. The aim of the Daily Racing Form Publishing Co. is to give the American public the sort of book it needs at a popular price. The thoroughbred turf has been naturally cared for. In other American annual books of record it has always been slurred. The Handicap Tables are keen novelties. Two were first published in the 1897 Manual. In this, three are displayed. In addition an article as to the application of the figures is printed. It contains the directions as to the methods used by the editor and handicappers in the office of Daily Racing Form in making their calculations. The track speed and comparative speed tables fit into the figures of handicapping, the basis of which is time. They have been corrected and give the various time tables to date. The history of 1898 pugilism is full and complete and so are the records of every American racetrack. The book is just what it is said to be, and built for popular use in a popular way.

HANDICAPPING AND RACING

Successful handicapping is a matter of common sense use of the items of racing. No figures can supply the flexible measure that must be applied to the fields of horses by the turf mathematician. Acquaintance with individuals—horses and men—is the keenest item in handicapping. No figures can give an idea of the liking of horses for different kinds of soil, or human combinations. Both are matters of personal observation and judgment.

The temperament of the thoroughbred is almost as broad in scope as that of humanity. The really great horse, like the sharply acute man, overcomes all difficulties, and wins. There are few really great horses. Some of supreme speed are only creatures of speed. Clifford was a notable example. He would run himself to pieces, unless restrained. The restraint of placing such a horse is often exhaustive and fatal. Henry of Navarre and Ben Brush are modern types of the high-class and sensible horse. They won their races without riding management. Both showed sense and ambition in their youth—before they raced.

Speed is a keen factor in racing. It is the basis of handicapping of course, because it is the item which bears most sharply upon performance. But speed is valueless unless well calculated upon the basis of how speed was applied in the past. Handicapping is the calculation out of what has been done. Some horses favor racing in front; others choose, by mere temperament, to come from behind. Our timing is villainously inaccurate. I have known timers to miss the application of their watches to the start, and average matters on the basis of what horses in the race should do, as compared with what other horses in other races had done. Slipshod time keeping is one of the evils of the American turf. Judges and starters are paid large and timers small sums for their services. Considered in a public way, the timer is a more important official than either judge or starter. The keener of our handicappers, who bet large

sums on their ideas of the performance of horses, keep their own time and find such keeping most profitable. The same men watch performance closely and bet on the judgment that comes from pure observation. The winners of to-day come from the losers of past days.

This fact is the sharpest argument against foreign betting. Mathematics can consider and apply the weights, distances and time of past performance to the probabilities of the future. But figures cannot—unless mingled with the judgment out of observation of racing and knowledge of individual peculiarities—be intelligently applied to racing.

Figures, however, even from the foundation of imperfect timing and report, outclass all other methods of picking winners. For that reason alone the general honesty of racing can be proven, accepted and praised.

The average handicapper, as the public knows him, guesses at his figurative estimates. Unless he does he will not "do." Man isn't a machine. He has moods, strong points, weak points, good days, and bad days. The thoroughbred horse is as flexible as man. The bookmaker flourishes upon his percentages, attention to details and the failure of the public to allow for individual peculiarities. Only the great horse and the great man does great things—regularly. Class is the ability to perform and win despite all obstacles.

I consider that there are twenty grades in horsedom. The bad horse isn't any more acrobatic or roguish than the cheap man. Neither can be chosen for reliability. From what I've seen of the turf and its action I declare, without hesitation, that figures will not select winners unless they are made under the eye of the mathematician who observes the individual he classes, knows that individual's strong and weak points, and at the same time calculates the average of owning and riding honesty, and ability.

The percentage of honesty upon the turf is as high as that of any mercantile corner, with a higher average of chance for trickery. The success of clumsy mathematics as applied to racing proves this statement. If any one does not think so I'll bet him—, I to prove my statement, or lose.

F. H. BRUNELL.

THE MATTER OF HANDICAPPING

The system followed in the office of Daily Racing Form is to estimate in decimal numbers the value of the past racing of the horses in each race—not on the basis of one, but often of twenty or thirty races. Frequently after the test of figures has been applied by the mathematician the editors add and amend because of special acquaintance or knowledge. So-called “inside information” is never used. The “form” is “form” only. In last year’s Manual two examples of “form” application to fields of horses were used. Here they are. The two examples apply to Handicap Table No. 1. Table No. 2 fits in with the general idea of No. 1. The first example is about the third race at Oakland, Nov. 30, 1896:

Horse.	Wt.	H'd.	Reason.
Kamsin	91	210	From race 4900 1 mile, 104 pounds. Time 1.41¾. Estimated value 195. 13 pounds off equals 15 points.
Damien.....	94	164	From race 4914 1 mile, 108 pounds. Time 1.42½. Estimated value 149. 14 pounds off equals 15 points.
The Dragon.....	94	No recent form worth calculation.
Lincoln II.	87	149	From race 4914 1 mile, 85 pounds. Time 1.42½. Estimated value 151. 2 pounds on equals two points deduction.
Salisbury II.	106	137	*From race 5164 1 mile, 96 pounds. Time 1.42¾. Estimated value 149. 10 pounds on equals 12 points deduction.
Installator	110	176	†From race 5079 ¾ mile, 110 pounds. Time 1.29¾. Estimated value 176. Same value applied to the mile.
Thornhill	103	Recent performance gives no material for consideration.
Gratify.....	91	Form insufficient for calculation.
Salvation	103	Form insufficient for calculation.

*The sense of racing idea for easiness of victory would allow from 8 to 10 points to this horse for the ease of his victory in race 5164.

†Knowledge of individuality in this case would furnish the handicapper with material for an allowance of from 5 to 10 points. The horse likes a sprinting distance.

In the race itself Salisbury II and Lincoln II had a close finish. Kamsin and Damien were left at the post. The figures applied correctly to Salisbury and Lincoln II. They failed on Installator. His excuse may have been a combi-

nation of ill luck in the race, dislike for the extra furlong, or shortness.

The second example is over the fifth race at Ingleside, Dec. 9, 1896.

Horses.	Last Dis.	Time.	Wt.	Wt.	Est.
Lucille.....	$\frac{7}{8}$ m	1.29 $\frac{1}{2}$	107	107	144
Carrie U.....	$\frac{3}{4}$ m	1.16 $\frac{3}{4}$	102	107	142
Fortuna.....	$\frac{3}{4}$ m	1.18 $\frac{3}{4}$	105	107	None
Pollock.....	1 m	1.43 $\frac{3}{4}$	92	107	54
Woodchopper.....	$\frac{7}{8}$ m	1.30	103	115	113
Jack Richelieu.....	$\frac{3}{4}$ m	1.18 $\frac{1}{2}$	130	115	79
San Marco.....	6 $\frac{1}{2}$ f	1.23	103	110	167
Toano.....	$\frac{3}{4}$ m	1.14 $\frac{1}{2}$	101	112	192
Kowalski.....	$\frac{7}{8}$ m	1.30 $\frac{1}{4}$	105	110	107

The horses ran to the figures one—two—three—four. Toano, 192, first; San Marco, 167, second; Lucille, 144, third; Carrie U., 142, fourth.

To go to later racing an advance table of the third race at Ingleside Dec. 27, 1896, was figured overnight this way:

Satsuma.....1,000	Morellito.....	890
Buck Massie.....980	Tom Cromwell.....	830
Count of Flanders...970	Orimar.....	780
Mercutio.....910	Spunwell.....	770

The race was "tipped" on the mere notion of what boys would ride: Buck Massie, 1; Satsuma, 2; Count of Flanders, 3.

When the scratches came in, Buck Massie was out of the way; Woods was on the Count of Flanders, Clawson on Spunwell. Both boys suited both horses. E. Jones was on Satsuma. He had ridden him well, but the notion was that he could not do him full justice.

Still the calculation was:

Satsuma, 1,000.

Count of Flanders, 990.

Spunwell, 920.

Flanders won easily the mile in 1:40 $\frac{1}{4}$. His class had been underrated. So, perhaps, had Spunwell's. He was second, but overraced himself, according to past figures. Satsuma, third, did not run to the notch. The race—selected in advance for truth of running—did not yield to expectation. Future performance will show this to be true. Here is the overnight table as it was figured:

Satsuma.....1,000	Morellito.....	890
Buck Massie.....980	Tom Cromwell.....	830
Count of Flanders...970	Orimar.....	780
Mercutio.....910	Spunwell.....	770

Form charts supply the starting point of Handicap Table No. 3. Position, weight, distance ran and beaten, and time, are the matters for consideration. The application of all are shown in a practical way below:

The fourth race at Ingleside, Dec. 30, 1896, was figured in advance, and yielded as follows, on the basis of Handicap Table No. 3:

Horses.	Weight.	Hand.
Horatio	98	7775
Tripping	103	7823
Orimar	106	7831
Tom Cromwell	115	7793
Mercutio	98	7754
The Roman	106	7895
Buckwa	112	7871

The jockey and betting angles of the race before it was run retired Tom Cromwell and left the contention to The Roman, Buckwa and Orimar. They ran two-one-three.

The fifth race at Ingleside, Dec. 31, was figured the night of Dec. 30, 1896. Two handicaps were made by two men on the basis of Table No. 3. Here are both:

Handicap No. 1.

Horses.	Weight.	Hand.
Personne	95	7775
Horatio	98	7766
Marquise	104	7827
Bernardillo	95	7897
Souffle	104	7811

Handicap No. 2.

Personne	95	7716
Horatio	98	7766
Marquise	104	7802
Bernardillo	95	7951
Souffle	104	7811

Bernardillo was first, Souffle second and Marquise third.

Here is the expert's explanation as to one horse—Horatio—which, of course, applies in application to all:

Figure Horatio first, and as his race at one mile, which was run in 1:42, seems best to apply to this race, look down the column on chart headed "one mile" until you come to the time 1:42, and opposite you will see the figures 7768, which is the number of points a race of one mile in that time equals. Next see how far he was beaten, which was

1¼ lengths. Looking at the head of same column on chart you will see two sets of figures connected with a hyphen, 15-426. The 15 is the number of points equal to 1 length, therefore you subtract the equivalent of 1¼ lengths, or 19 points, from your 7768, leaving 7749. Next look at weights. To-day he has 6 lbs. off from that race. Now take the last number of the hyphenated pair at top of the chart (426), which means 4.26 points to each pound weight for that distance, and as he has 6 lbs. off he will figure in this race 6 times 4.26 points, or 26 points better (add full point if fraction is over ½), which add to your 7749, making 7775—his value in the race. Should he have weight on, his value would, of course, be less, and you subtract instead of add. In all cases, if possible, figure up the values from a race of the same distance as the one you are figuring on. If not, take one at the nearest distance to it and look for your figures in the column headed that distance.

Figure up all the horses in the race in this way. In the example their values are as follows:

Horse.	Date.	Weight.	Beaten.	Dist.	Time.
Horatio	Dec. 4....	104	1¼1	1 m	1:42
Tripping	Oct. 16....	103	1 m	1:41¼
Orimar	Oct. 29....	105	1 m	1:41½
Tom Cromwell.	Oct. 22....	116	3 1	1 m	1:41
Mercutio	Nov. 20....	108	7½1	1 m	1:41¼
The Roman....	Dec. 6....	103	¾1	1 m	1:40
Buckwa	Dec. 21....	115	1 1-16m	1:47½

Table No. 3 will not do. It requires too much of the uniformity of condition and distance for general use. For special or occasional race application it is valuable.

DIRECTIONS FOR APPLICATION.

The key to the handicap figures above is as follows:

First column designates time. Second column denotes figures of classification. Third column gives the key figures of weights for classification.

A nose counts $\frac{1}{2}$ a point. A head counts 1 point. A neck counts 2 points. Half a length 3 points. A length 5 points. One length is equal to $4\frac{1}{2}$ pounds at 1 mile or $\frac{1}{4}$ of a second in time.

Grade down weight and time allowances for lesser distances and grade up for over a mile.

At $\frac{3}{4}$ mile and less, speed is the most important item, outside individuality to be considered.

As in all handicap tables, the personal judgment of the calculator, as to quality, must be used in connection with the figures of classification.

HOW NOT TO LOSE

I tackled the thoroughbred racing sport under protest, in the fall of 1889 at Ed Corrigan's West Side track. Before that I had only studied and written about trotters. I was under contract to The Chicago Tribune. The trotters had ended their Western work for the season, and to fill a term I was turned loose among the thoroughbreds. It cost me \$500 that fall. Seeing the necessity of studying the racing side of sporting I went keenly to the books during the winter. The baseball war turned up before the year was over. I was elected secretary of the National League of Baseball players and drifted from newspaperdom for a year. But my interest in racing did not die. I kept at the books, and when The Tribune re-engaged me the following spring it was to take charge of its sporting department and personally report racing. Of course I went at my work in a slapdash way, made mistakes, overlooked personality, bet and wrote matter which was unfair. I lost \$2,700 that year—1891. Such financial punishment told me that some of my cogs were loose. I had played favorites, information and notion—mildly mixed with public form. I came to the conclusion that form, dashed strongly with knowledge of the personality of the horse, was the true guide. I gathered a lot of individual information about horses and a lesser store of the form of owners. I advised The Tribune to use telegraphic form sheets in 1892 and carried my point. That year I applied the information about horses and men, bet more than I had ever done before and won \$700 on the season. My store of information naturally increased, and 1893 I cleaned up \$2,800 in betting operations. In 1894 I won \$6,400, mostly at Washington Park. In nineteen days in the middle of that noble meeting I lost but seven bets and won \$7,930.

During the World's Fair meeting at Washington Park I won \$3,450 off a \$2 note. Though in position to do so, I never asked an owner for information, except at Hawthorne, where the racing was concise and each regular at-

tendant knew the other and information was gossip. The result of such information was less than profitable. In the averages I simply played the form figure of the past, tempered by what I had seen, outside the figures, the individuality of the horses and prices, when form figures ran into each other. The handicap table was discarded whenever its calculations ran against those of observation.

The latter and the ability to apply it to the horses, as grouped in races, is the key to betting success. Dishonesty on the turf is no broader than that of everyday trade and not worth consideration. I always did of late, though, figure that the incentive to beat a short-priced favorite was too great to be thrown out of calculation. Such favorites are marks for the general mob to shoot at—a natural obstacle for the owner of other horses in the race to bowl over. In the fall of 1894 I started Daily Racing Form—entirely my own idea. Its work was so keen and hard that the practical application of literary information to everyday racing was impossible and I stopped betting. In 1896, following the old plan, I made seven bets and won six of them. The year following I stopped betting entirely.

The way not to lose as I have found it, is in these few directions:

Never play a horse at less than evens.

Study the horse and its disposition.

Figure form on a basis of universal honesty.

Think for yourself. It is the only way to find how good you are. Give this plan a thorough trial.

When you can, always insure yourself by place betting.

One-two-three betting is not worthy of the attention of an intelligent bettor. I once bet Bill Riley at 20 to 1 one-two-three on a horse that went to the post 2½ to 1 straight. He was fourth.

Use handicap figures only as a check on your own observation and idea of class.

Never seek to get even on a losing day by taking a chance on a long shot which isn't within calculation. There are other days.

Do not weaken on your choice because the price is long.

The ten years average of winning favorites, all about, is less than 41 3-7 per cent.

Time is an important factor. Discard the Anglo-American argument about its general worthlessness. I always figured it next to class, speed and individuality.

Class, as I calculate, is general ability to do great things when called upon to do them. Its most important item—supposing ability and speed to be with the horse—is disposition. The highest equine qualities are: Ambition to win and the intelligence to be placed and not to “fight” the rider.

Keep a record of impressions as to individual action and performance in bad going. Less than 17 per cent of favorites win on tracks that are denominated slow, muddy or heavy.

These are the general rules that led me to avoid loss in betting on the chances of various groups of American race-horses.

In races of intermediate lengths the weights for the shorter distance shall be carried.

In races exclusively for three years old or for four years old, the weight shall be 126 lbs., and for two years old, 122 lbs.

Except in handicaps, and in races where the weights are fixed absolutely in the conditions, fillies two years old shall be allowed 3 lbs. and mares three years old and upward shall be allowed 5 lbs. before the 1st of September and 3 lbs. afterward. Geldings shall be allowed 3 lbs.

Welter weights shall be 28 lbs. added to the weight for age.

In heavy handicaps the top weights shall not be less than 140 lbs.

In all handicaps the top weight shall not be less than 126 lbs.

If, in a handicap for which there is a minor forfeit declared by a fixed time, the highest weight accepting was originally less than 126 lbs., it shall be raised to that weight, and the other acceptances equally.

BILLIARD RECORDS TO DATE

The game of billiards, so far as professionalism is concerned, has passed its zenith, and as time elapses it will be seen that the skill exhibited by Frank C. Ives and Jacob Schaefer in their record breaking matches of Nov. 12 to 17, 1894, New York City, and Dec. 3 to 8, 1894, Chicago, must be classed with the lost arts. The style of game then played was that known as "14-inch balk line, anchor barred, one shot in." In the first series of games, 6 nights, 600 point blocks, Ives made a grand average of 48 24-37, Schaefer one of 41 20-37. At Chicago Ives' figure was 41 33-87; that of Schaefer 32 47-87. Ives made the record run of 359; Schaefer the record average, 62 14-15 in 944 points, for one night's play. It is asserted that nothing approaching the above performances will ever again be seen. Slosson, the third first-class American expert, is far below Ives and Schaefer in speed at the same style of billiards, and the nearest "shortstop" record, that of Sutton, is a grand average of 21 1-10 in less than half the number of points played by Ives and Schaefer.

Obstacles have since been raised to impede the speed of the first-class men, and it may be said that the billiardist of the future will be so inured to overcoming difficulties that upon return to 14-inch balk line billiards, he will continue counting indefinitely, just as would a champion of the present if he reverted to playing with four balls. But the argument will not hold, as a steeplechaser never was known to win a high-class race on the flat after being pounded to death across country carrying a crushing weight. Even so great a billiardist as M. Vignaux contends that the latest improvement in billiards, i. e. "18-inch balk line, anchor barred, no shot in," is too hard a game, and if this man, with his wonderful physique and perfect pendulum stroke, so argues, what chance is there to build up a champion from a youngster who thinks nothing but the latest innovation is the style of billiards for a beginner.

The institution of "academy" play in this country was

looked to as a means of developing billiard experts, as in France the great players have thus been enabled to gain a good livelihood, at the same time being furnished with hours of the best practice daily. But Green's Academy in Chicago has now been in operation a long time, and yet Sutton, when called upon near the close of 1898 to exhibit his speed in match play, fell off so appreciably that he was beaten at cushion caroms by Catton, and at 18-inch balk line, no shot in, by Spinks, in both cases being beaten on even terms by experts accustomed to only hold him level in the games of the academy when conceded 20 per cent in points. Thus Sutton's light went out, and if he ever succeeds in heading his class and becomes champion—as alone he can by the death of Ives, Schaefer and Slosson—we shall then appreciate the fact that the golden era of professional billiards has long since passed.

Billiards has now become a well defined science, and the game may be taught, the best professionals all playing practically the same system at ball-to-ball. In consequence the speed of the amateur is rapidly accelerating. Finishing the Class B amateur championship tournament (K. A. C., New York) Dec. 16, J. Byron Stark, the winner, put on record a single average of 10 1-3, and with a grand average of 7 7-10 ran close to the record of C. E. Ellison of 7¼ made in 1895. In the New York tournament A. Taylor of Chicago ran 71; J. D. Smith, 64; and Ellison's 74 is the record. The successful efforts of the Amateur Athletic Union of the United States in instituting the amateur contests for the championship is the greatest thing that has ever been done in this country in the best interests of the game of billiards. The Class A tourney slated for Feb. 13, 1899, will bring together Martin Mullen of Cleveland, Wilson P. Foss of New York City, Wayman C. McCreery of St. Louis, J. Byron Stark of New York City, and possibly C. E. Ellison of Chicago. The Knickerbocker Athletic Club of New York City has the matter in charge, and invitations will be issued to club men throughout the country, insuring an attendance at the games which will decide the amateur championship of men from various sections of the country whose presence will be of the highest importance, as tending to bring to public appreciation the real greatness of the game of billiards. All of the players for the Class A tournament, with the exception of Mr. Stark, have lately been reinstated by the A. A. U., for each was supposed to have about

him some taint of professionalism because of engaging at one time or another in contests with professionals. There has existed a set of definitions intended to cover amateurism, which, framed by visionaries, made it next to impossible to find a man answering all requirements as to eligibility to amateur contests. Not yet has the A. A. U. marked with distinctness the boundaries, but the organization is entitled to all credit for blazing the path so that eventually the happy land may be discovered.

The coming tournament for the amateur championship is of the utmost importance to the perpetuity of billiards in this country. In all games the character of the men patronizing them is the foundation of success or failure, and therefore lovers of billiards will learn with pleasure that the contestants for amateur honors are men typically American. Mr. Foss started in life a poor boy and unaided has won his way to social prominence and the possession of one million dollars. As a maker of dynamite he for years worked with his men and every hour was in danger of his life, upon one occasion being blown some 250 feet by an explosion at his works, and when picked up was as naked as the day he entered the world. Mr. Mullen, beginning as a tally clerk on a coal dock, is to-day one of the biggest shippers of coal in the United States, and is worth one-quarter of a million of dollars. Mr. McCreery comes of a wealthy family, but has enlarged his patrimony until now he is the recipient of an income of \$30,000 a year. Mr. Stark is a young New Yorker of independent means. Mr. Ellison, the only poor man of the quintet, is, like the others, a man of strong and sterling qualities. From such experts much may be expected. The youngest, Mr. Stark, holds the amateur record as to single average, while Mr. Ellison has the best grand average as also the high run to his credit. Yet, as betting shows how sporting affairs stand in popular estimation, neither of these gentlemen is considered to have better than an outside chance for first honors. Geo. W. Wheelock of New York posted at first the odds of 2 to 1 against Foss, and was quickly forced to cut down to 6 to 5. Afterwards it was $2\frac{1}{2}$ to 1 against Mullen, 3 to 1 against McCreery, with Ellison and Stark the outsiders in the betting. Thus is shown how greatly has improved the game of balk line, for the amateur record of 10 1-3 was quite up to the poorer performances a few years ago of even so great a billiardist as Jacob Schaefer. The tourney of Feb. 13 next is likely to

show a single average of 25, and a grand average of 13, for one or another of the participants.

Death has during the past year invaded the ranks of the champions and before his lance has fallen Wm. Sexton and Frank Parker.

The first named was the most successful expert of the United States, he holding the championship for eighteen months, and having the emblem die on his hands. As a money player he had no equal, unless in the person of Cyrille Dion. Frank Parker won the four-ball championship by a "scratch," beating A. P. Rudolphe, and having the emblem taken away from him at the first try by Cyrille Dion. Sexton was first class at "straight rail" cushion carroms and "the champions' game." Parker was first class possibly at four-ball billiards and at no other style, but like Sexton he was a great money player. He, like John L. Sullivan, could have retired before defeat and lived in memory as a great billiardist, but, unwisely, he stayed in the ring too long, so that beaten by youngsters the cry arose, "He never was of great account." Sexton, on the other hand, for years before his death, retired from public contests, and gracefully acknowledged "the boys have become too fast for me." Parker died at the age of 56, Sexton at 42. The first was born in New York state, but at an early age moved to Wisconsin; the other was a Green Mountain Boy, who lived the latter part of his life in New York City. Both were convivial spirits, and each had great opportunities of snaring the fortune which escaped. As a popular idol Sexton rivaled Jacob Schaefer; Parker also was widely known. Both men were esteemed highly; as story tellers were noted; and filled to perfection the idea that a sport at one game should be a sport at all games. They were both natural billiard players.

The return of Eugene Carter to his native land after some nine years of foreign residence and travel somewhat enlivened the rather dull billiard year. Carter has taken high rank as a three-cushion player through his two defeats of Jacob Schaefer, the Wizard being beaten 100 to 84 and 50 to 45, but winning 50 to 48. These games were played in Green's Academy late in the fall and were for "stage money," that is, the kind used by the villain in the play for procuring the assassination of the hero. Later Schaefer posted \$250 in gold for a match, but Carter lost a \$10 forfeit. Schaefer's illness, Dec. 16, postponed indefinitely another 100-

point academy game, which played later resulted in a victory for Schaefer 100 to 93. Early in the year at Recital Hall, Chicago, Schaefer beat Ives 125 to 105 in an exhibition game at three cushions. Schaefer ran 8 and scored 54 points in 55 consecutive innings. His final shot was effected after the cue ball bade fair to go out of the window, but returned to the bed of the billiard table after jumping high in air. So great a spell attaches to the Wizard that one spectator was heard to say, "not so very wonderful; I have seen him make that shot before."

The only shortstop matches of the year for the "real stuff" were those played by Catton and Spinks against Sutton. The first at cushion carroms for \$500 a side was won by Catton. Spinks won the second, the style being "18-inch, no shot in anchor or balk," for \$250 a side. Gallagher beat McLaughlin in a "continuous show" in New York City at "18-inch, no shot in," and made a single average of 10. Much money might have been won on "Gray Tom," one man offering to wager \$1,000 on McLaughlin.

Of championship matches there were two, Schaefer beating Slosson for the medal won by the latter in tournament, and later being deposed by F. C. Ives. Schaefer won on the "fast" cushion used in the tournament, but as the average of the winner was under 8 and both players were utterly unable to keep the balls from running away the Schaefer-Ives match was decided on a "match" or "slow" cushion. Here the winner went to an average of over 15, which is the match record at "18-inch, no shot in."

The year closed with no champion, as Ives killed the only emblem in existence by returning it to the donors.

JOHN THATCHER.

A history of American and European billiards, with diagrams of famous shots, records, keen criticism, comments on players to date, can be found in the intensely interesting book, "Billiards, Old and New," by John Thatcher. It is in soft morocco covers. Cost, \$1.00, and can be sent from this office.

BEST RECORDS AND AVERAGES

- Four Ball Game—Best run, push shot and jaw permitted: 1483, by John McDevitt, in a match with William Goldthwaite, Cooper Union Hall, New York, Jan. 8, 1868. The run was made in the jaw on a $5\frac{1}{2} \times 11$ table, with four pockets, the standard at that time. Directly afterward jawing was prohibited.
- Best average, push shot and jaw permitted—166 2-3 in 1,500 points. John McDevitt against William Goldthwaite, Cooper Union Hall, New York, Jan. 8, 1868.
- Best run, push shot permitted, jawing prohibited—1,458, John McDevitt, Library Hall, Chicago, in a match against Joseph Dion, Sept. 16, 1868. This performance caused the prohibition of the push shot.
- Best average, push shot permitted, jawing barred—166 2-3, John McDevitt, Library Hall, Chicago, Sept. 16, 1868.
- Best run, push shot and jawing prohibited—321, Cyrille Dion, Irving Hall, New York, in a match against John Deery, Nov. 29, 1872.
- Best average, push shot and jawing prohibited—40 20-37, Cyrille Dion, in a match of 1,500 points, against A. P. Rudolphe, Tammany Hall, New York, April 7, 1876.
- Best run, push and crotch barred—492, Melvin Foster, Irving Hall, New York, April, 1869, in play-off game with P. Snyder. Best run in match, 321, Cyrille Dion, November, 1872, contest with John Deery.

THREE BALL GAME.

- Best run, 5×10 table, the standard match size: 1,531, Maurice Vignaux, in a match of 4,000 points against George F. Slosson, Paris, France, April 12, 13, 14, 1880. The game began April 10, 800 points being played each night. On the third night Vignaux reached 2,400, with an unfinished break of 651. The next night he ran 800 and Slosson did not get a shot. When he had made 80 on the final night's play, he missed.
- Best average—333 1-3, Jacob Schaefer, in a match of 1,000 points against George F. Slosson, McCormick's Hall, Chicago, May 15, 1879.

Best run on a $4\frac{1}{2}\times 9$ table—3,000, Jacob Schaefer in a match against J. F. B. McCleary, May 29, 30, 31, 1890. McCleary received odds of a discount. After Schaefer began his fourth inning McCleary did not get a shot.

Best average on a $4\frac{1}{2}\times 9$ table—751, Jacob Schaefer, in 3,000 points. San Francisco, May 29, 30, 31, 1890. This record has incorrectly been published as 750. Schaefer's score was 0, 4, 0, 3,000. Total 3,004. The 4 made in the second inning were discounted by McCleary, who made a total of 15.

CHAMPIONS' GAME.

Best run, 14x28 inch lines: 398, George F. Slosson, in a match of 3,000 points, with Maurice Vignaux, Paris, France, Jan. 30 to Feb. 3, 1882.

Best run, 18x38 lines—236, George F. Slosson, in a match of 800 points against Jacob Schaefer, Central Music Hall, Chicago, May 31, 1884.

Best run, 20x40 lines—97, George F. Slosson, in a match of 800 points against Jacob Schaefer, Central Music Hall, Chicago, Jan. 5, 1885.

Best average, 14x28 lines—38 36-78, George F. Slosson, in a game of 3,000 points, against Maurice Vignaux, Paris, France, Jan. 30 to Feb. 3, 1882.

Best average, 18x38 lines—28 4-7, George F. Slosson, in a game of 800 points against Jacob Schaefer, Central Music Hall, Chicago, May 31, 1884.

Best average, 20x40 lines—16 2-3, Jacob Schaefer, in a game of 800 points against George F. Slosson, Central Music Hall, Chicago, Jan. 5, 1885.

BALK LINE GAME.

Best run, in 8-inch lines: 329, Maurice Vignaux, in a match of 3,000 points against Jacob Schaefer, Grand Hotel, Paris, Jan. 14 to 18, 1884.

Best average, 8-inch lines—44 52-67, Maurice Vignaux, in a match of 3,000 points against Jacob Schaefer, Jan. 14 to 18, 1884.

Best run, 14-inch lines—566, Jacob Schaefer, in a tournament game of 600 points against Frank C. Ives, New York, Dec. 16, 1893. This run was made on the anchor.

- Best run, 14-inch lines, 10 shots allowed in anchor—359, Frank C. Ives, in a match game of 3,600 points against Jacob Schaefer, Central Music Hall, Chicago, Dec. 6, 1894.
- Best run, 18-inch lines, two shots in balk, five shots in anchor—200. Frank C. Ives, in a tournament game of 600 points against Albert Garnier, Madison Square Garden, New York, March 31, 1896.
- Best run, 18-inch lines, no shot in balk and no shot in anchor—140, Frank C. Ives, in a tournament game of 500 points against George Sutton, Madison Square Garden, New York, Dec. 2, 1897. Jacob Schaefer ran 138, Chicago, Ill., January, 1898.
- Best average, 14-inch lines—100, Jacob Schaefer in a tournament game of 600 points against Frank C. Ives, New York, Dec. 16, 1893. 100, Frank C. Ives in a tournament game of 600 points against George F. Slosson, Central Music Hall, Chicago, Jan. 9, 1894. These averages were realized from anchor nursing and resulted in the adoption of restrictions that practically bar anchoring.
- Best average, 14-inch lines, ten shots permitted in anchor—48 24-37, Frank C. Ives in a match of 3,600 points against Jacob Schaefer, Madison Square Garden, New York, Nov. 12 to 17, 1894.
- Best average, 14-inch lines, ten shots permitted in anchor, one night's play—63 1-5, Frank C. Ives, in 632 points, scored the second night of a match of 3,600 points against Jacob Schaefer, Madison Square Garden, New York, Nov. 13, 1894. Ives was 32 points behind at the end of the first night's play. That enabled him to continue his score to 632 the following night.
- Best average, 18-inch lines, two shots in balk, five shots in anchor—50, Frank C. Ives in a tournament game of 600 points against Albert Garnier, Madison Square Garden, New York, April 2, 1896.
- Best average, 18-inch lines, one shot in balk, one shot in anchor—31 4-16, Frank C. Ives, in a tournament game of 500 points against George Sutton, Madison Square Garden, New York, Dec. 2, 1897.
- Best average, 18-inch, no shot in anchor or balk—40, Jacob Schaefer, in a tournament game of 400 points, Chicago, January, 1898. This performance made on "match" cushion. F. C. Ives, New York, Dec. 2, 1897, made a tournament average of $31\frac{1}{4}$ on a "fast" cushion in a game of 500 points.

CUSHION CARROMS.

Best run: 85, Frank C. Ives, in a tournament game of 300 points against Maurice Daly, Bumstead Hall, Boston, April 14, 1896.

Best average, 500 points—4 76-106, George F. Slosson, in a match against Jacob Schaefer, Central Music Hall, Chicago, April 4, 1887.

Best average, 300 points—5 45-51, Frank C. Ives, in a tournament game against Albert Garnier, Bumstead Hall, Boston, April 16, 1896.

Best average, 200 points—10, Jacob Schaefer, in a tournament game against Thomas J. Gallagher, Madison Street Theater, Chicago, Nov. 10, 1887.

Best average, 500 points, on a $4\frac{1}{2}\times 9$ table—10, Jacob Schaefer, in a tournament held at Tammany Hall, New York, May 14 to 25, 1883.

[The rules of the tournament permitted counts to be made by the cue ball making a direct carrom before touching a cushion, then going to a cushion and subsequently coming in contact with either object ball. Those rules are not now given any respect by professionals, who recognize as legitimate cushion-carroms only strokes in which the cue ball touches one or more cushions before hitting the second object ball.]

THREE-CUSHION CARROMS.

Best run: 14, Frank Peterson, in amateur tournament at Mussey's Hall, St. Louis, October, 1885.

Best average—943, Wayman McCreery, in a match of 50 points, with L. L. Magnus, Mussey's Hall, St. Louis, Nov. 16, 1882. McCreery scored his 50 points in 53 innings.

Best performance in "academy"—J. W. Capron, St. Louis, April, 1898, won 8 consecutive games of 8 points each in 35 innings, scoring the first 45 points in 17 innings.

The new records of 1898 follow:

18-INCH BALK LINE, CHICAGO.

Green's Academy, Chicago, Nov. 29, 1898. Match for \$250 a side. W. A. Spinks, 400; Geo. Sutton, 308. Winner's

average, 8 1-3; high runs 45, 44, 28, 27. Loser's average 6 26-47; high runs, 56, 32, 25, 23. Sutton was favorite, it being 2 to 1 against Spinks. The winner got to 200 on a 12 average, and played throughout the best game of his life. Sutton performed a discount worse than might have been expected. Referee, Ben Saylor; marker, C. Mathews.

THREE CUSHIONS, CHICAGO.

At Green's, Chicago, December, 1898, two money games at three cushions were played by Eugene Carter and John Daly, and upon these there was considerable betting. Daly won the first by a score of 30 to 25 (just before, on the same night, he had been beaten at three cushions for \$50 a side by W. H. Catton, 30 to 10), while Carter a few nights later was successful, 20 to 16. The last game consumed two hours, Daly being a very patient man and an extraordinarily good safety player. He has repeatedly offered in the presence of both Schaefer and Carter to play any man in the world for \$500 a side at the three games of three-cushion carroms, pin pool and fifteen ball pool, the money to go on the odd.

CHAMPIONSHIP MATCH, CHICAGO.

Central Music Hall, Chicago, April 2, 1898. Second and last match for B. B. C. Co. medal for 18-inch balk line championship, played on "match" (slow) cushion. Frank C. Ives, 600; Jacob Schaefer, 427. Winner's average, 15; high run, 91. Loser's average, 10 27-40; high run 90. Before Ives left the hall he returned the emblem to the donors, and so killed the only championship in existence. His reasons were personal, and he disclaimed any intention of retiring from billiards. Yet, refusing to play Schaefer two months later at St. Louis for \$500 a side, and in December, 1898, failing to come to an agreement with Schaefer for a match, although the Wizard, waiving all conditions, said to him, "I will play you anywhere." It is asserted that F. C. Ives' physical condition is such that he never again will play a billiard match. Some persons argue that Ives has too much money to play billiards, but the general opinion is that he cannot stand training because of a weak condition of the lungs. In the last match Schaefer lost by

leaving the balls in balk four times, once on his 90 run, where ahead of Ives, he looked all over a winner. The Napoleon, having down a \$1,000 bet, was getting anxious at this stage of the game, but following Schaefer's mishap with a run of 43, he jogged the balance of the way. The average is the best match record at this style of billiards. Referee, John Matthews; marker, C. Mathews.

CHAMPIONSHIP MATCH, NEW YORK.

New York, Feb. 5, 1898. First match for B. B. C. Co. medal for 18-inch balk line championship. Jacob Schaefer, 600; Geo. F. Slosson, 596. Winner's average, 7 33-81, high run, 76. Loser's average, 7 9-20; high run, 34, made in last inning. This game is like to stand as the record on a "fast" cushion, as before the next championship match such was discarded. Schaefer here, for the seventh time in his extraordinary career, made a phenomenal finish, as averaging little for 75 innings in the last 6 he averaged 18, and ran 76 in the last 100, finishing the game with 24. Slosson lost the game by a "kiss off" in a "follow," the balls being "lined" near the center of the table. Referee, Ed. McLaughlin; marker, Budd Scofield.

HANDICAP TOURNAMENT—CHICAGO.

Central Music Hall, Chicago, Jan. 17 to 22, 1898. Handicap tournament, 18-inch balk line, no shot in; "match" (slow) cushion; \$100 entrance; \$1,750 added by B. B. C. Co. F. C. Ives and Jacob Schaefer (scratch), 400 points each; W. A. Spinks, W. H. Catton and Geo. Sutton, 260 points each.

First Game, Jan. 17—Ives, 400; Catton, 98. Winner's average, 28 4-7; high runs, 132, 105. Loser's average, 7; high run, 20.

Second Game, Jan. 18—Spinks, 260; Schaefer, 139. Winner's average, 10 5-6; high run, 48. Loser's average, 5 19-24; high run, 38. This is the celebrated game where Schaefer tried to condition himself on beef tea.

Third Game, Jan 19 (Afternoon)—Catton, 260; Spinks, 249. Winner's average, 6 16-19; high run, 56. Loser's average, 6 21-38; high run, 44.

Fourth Game, Jan. 19 (Evening)—Ives, 400; Sutton, 160.

Winner's average, 28 4-7; high run, 123. Loser's average, 12 4-13; high run, 51.

Fifth Game, Jan. 20 (Afternoon)—Sutton, 260; Spinks, 118.

Winner's average, 17 1-3; high run, 73. Loser's average, 8 3-7; high run, 30.

Sixth Game, Jan. 20 (Evening)—Schaefer, 400; Sutton, 195.

Winner's average, 21 1-19; high run, 87. Loser's average, 10 5-6; high run, 37. Schaefer had "rounded to" in 24 hours under the care of "Dr." T. H. White.

Seventh Game, Jan. 21 (Afternoon)—Schaefer, 400; Catton, 93.

Winner's average (best on record), 40; high run, 106. Loser's average, 10 1-3; high run, 42. Schaefer's score: 33, 34, 68, 0, 23, 27, 25, 1, 106, 83. Total 400.

Eighth Game, Jan. 21 (Evening)—Ives, 400; Spinks, 154.

Winner's average, 20; high run (unfinished), 136.

Loser's average, 7 7-10; high run, 44.

Ninth Game, Jan. 22 (Afternoon)—Sutton, 260; Catton, 95.

Winner's average, 13 13-19; high run, 49. Loser's average, 5 5-18; high run, 43.

Tenth Game, Jan. 22 (Evening)—Schaefer, 400; Ives, 378.

Winner's average, 22 2-9; high run (from spot), 138.

Loser's average, 22 4-17; high run, 100. This was one of the grandest games of billiards ever played. The loser's average was the best, and throughout the excitement was intense. No money changed hands. Eddie Burke, Ives' partner, refusing to lay longer odds than \$100 to \$80 against Schaefer, whose backers asked \$100 to \$60. There was a blizzard raging, and here Schaefer gained the name of "mud horse."

SUMMARY.

THREE CUSHIONS—CHICAGO.

Recital Hall, Chicago, April 4, 1898, Exhibition Game, 125 points, three-cushion carroms—Jacob Schaefer, 125; F. C. Ives, 105. The winner had 169, the loser 168 innings. Schaefer made the high run, 8. His final shot was a "scratch," the cue ball jumping from the bed of the table and upon its return effecting the count. Referee, J. Matthews.

CHAMPION AMATEURS—NEW YORK.

Knickerbocker Athletic Club, New York, Dec. 5 to 16, 1898. Class B amateur championship tournament at 14-inch balk line, anchor allowed, the winner to be eligible to Class A tournament for championship of the United States to be held at same place Feb. 13, 1899, under the auspices of the Amateur Athletic Union. These tournaments are fixtures and are to recur annually. Contestants for Class B, 1898: J. A. Hendrick, New Haven; Geo. E. Hevner, Philadelphia; Alex. Taylor, Chicago; A. B. Miller, Ferd Poggenberg, J. Byron Stark, New York City; J. Demun Smith, St. Louis. Three prizes given by B. B. C. Co. First, a gentleman's toilet set of twenty pieces of silver; second and third, loving cups.

FOURTEEN-INCH BALK LINE—ST. LOUIS, MO.

In November, 1898, Frank Day easily defeated Lloyd Jevne and J. W. Capron in 600-point matches for \$50 a side, and with the last named player averaged nearly 10. He also defeated Capron at 18-inch balk line.

PUGILISM OF 1898.

Undoubtedly the most important event in pugilism during the past year was the final collapse of America's idol, James J. Corbett. His defeat by Bob Fitzsimmons at Carson City March 17, 1897, was quite a setback for the Californian, but his persistency in trying to match with Fitzsimmons again still left a warm spot in the hearts of Americans for him. This feeling, however, has been obliterated since his meddling with Tom Sharkey in New York City two months ago. A square up and up defeat at the hands of the Sailor Boy would have let him down easy, but with the stigma of fake shadowing him he is, in the vernacular of the street, "a dead one."

Fitzsimmons, still looked upon as the champion of champions, has permitted considerable grass to grow under his feet by not taking on at least one of his numerous challengers. Sharkey, by his willingness to fight everybody or anybody, has made rapid strides toward the championship goal. J. J. Jefferies' poor showing against big Bob Armstrong has relegated him somewhat. Peter Maher, of whom so much was expected, is traveling along in the same old rut, and Gus Ruhlin and Joe Choynski have also been standing still, as it were. Charles "Kid" McCoy has been very busy cleaning up everybody he has had dealings with, and before the year 1899 is eleven days old the followers of pugilism will know just where he stands. Tommy Ryan is still chief "cock of the walk" among the heavy welters, but how he will fare as a middleweight with Fitzsimmons and McCoy still able to battle in that class the coming year will show. George "Kid" Lavigne, although having a few close calls, still retains his title in the lightweight division, but is being closely pressed for the honors by Frank Erne, Jack Daly and Joe Gans, the latter's decisive victory over "Kid" McPartland sending him to the front with a rush. Tom Tracy, Joe Wolcott, Owen Zeigler, Charlie McKeever, Matty Matthews, Jack Everhardt, all heavy lightweights or light welters, are still pulling and hauling among themselves with

no decided advantage. Lightweight George Kerwin, a Chicago product, forged to the fore considerably during the past year. Among the featherweights the name of George Dixon stands out stronger and bolder than ever, despite his defeat at the hands of Ben Jordan, the Briton. Following in his wake come Oscar Gardner, Tommy White, Dave Sullivan, Eddie Santry, Sammie Kelly, Billy Rotchford, etc. Jimmy Barry is still head and shoulders over the little fellows. The world's champion bantam is seriously thinking of retiring, when his place will be fought for between such good ones as Terry McGovern, Jim Callahan, Harry Forbes, Casper Leon, Eddie Sprague, Jimmy Rose and Johnny Ritchie. Among the 105 to 108 pounders the brothers, Sammy and Harry Harris, look the best.

RULES GOVERNING PUGILISM

There are but two sharp codes of rules governing fistic contests: Those of the London prize ring and the set formulated, after being drawn up, by the Marquis of Queensbury, who, in his day, was the best amateur boxer in all England. The two codes are displayed here:

MARQUIS OF QUEENSBURY RULES

Rule 1—To be a fair stand-up boxing match in a twenty-four foot ring or as near that size as practicable.

Rule 2—No wrestling or hugging allowed.

Rule 3—The rounds to be of three minutes' duration, and one minute time between rounds.

Rule 4—If any man fall, through weakness or otherwise, he must get up unassisted, ten seconds to be allowed him to do so, the other man meanwhile to return to his

corner, and when the fallen man is on his legs the round is to be resumed and continued until the three minutes have expired. If one man fails to come to the scratch in the ten seconds allowed, it shall be in the power of the referee to give his award in favor of the other man.

Rule 5—A man hanging on the ropes in a **helpless state**, with his toes off the ground, shall be considered down.

Rule 6—No seconds or any other person to be allowed in the ring during the rounds.

Rule 7—Should the contest be stopped by any unavoidable interference, the referee to name time and place, as soon as possible, for finishing the contest; so that the match must be won and lost, unless the backers of both men agree to draw the stakes.

Rule 8—The gloves to be fair-sized boxing gloves of the best quality and new.

Rule 9—Should a glove burst, or come off, it must be replaced to the referee's satisfaction.

Rule 10—A man on one knee is considered down, and if struck is entitled to the stakes.

Rule 11—No shoes or boots with springs allowed.

Rule 12—The contest in all other respects to be governed by the revised rules of the London Prize Ring.

LONDON PRIZE RING RULES

Rule 1—The ring shall be made on turf, and shall be four-and-twenty feet square, formed of eight stakes and ropes, the latter extending in double lines, the uppermost line being four feet from the ground, and the lower two feet from the ground. In the center of the ring a mark be formed, to be termed a scratch.

Rule 2—Each man shall be attended to the ring by two seconds and a bottle-holder. The combatants, on shaking hands, shall retire until the seconds of each have tossed for choice of position, which adjusted, the winner shall choose his corner according to the state of the wind or sun, and conduct his man thereto; the loser taking the opposite diagonal corner.

Rule 3—Each man shall be provided with a handkerchief of a color suitable to his own fancy, and the seconds shall entwine these handkerchiefs at the upper end of one of the center stakes. These handkerchiefs shall be called "Colors," and the winner of the battle at its conclusion shall be entitled to their possession as the trophy of victory.

Rule 4—The two umpires shall be chosen by the seconds or backers to watch the progress of the battle, and take exception to any breach of the rules hereinafter stated. A referee shall be chosen by the umpires, unless otherwise agreed on, to whom all disputes shall be referred; and the decision of this referee, whatever it may be, shall be final and strictly binding on all parties, whether as to the matter in dispute or the issue of the battle. The referee shall be provided with a watch for the purpose of calling time; the call of that referee only to be attended to, and no other person whatever shall interfere in calling time. The referee shall withhold all opinion till appealed by the umpires, and the umpires strictly abide by his decision without dispute.

Rule 5—On the men being stripped it shall be the duty of the seconds to examine their drawers, and if any objection arises as to insertion of improper substances therein, they shall appeal to their umpires who, with the concurrence of the referee, shall direct what alterations shall be made.

Rule 6—The spikes in the fighting boots shall be confined to three in number, which shall not exceed three-eighths of an inch from the sole of the boot, and shall not be less than one-eighth of an inch broad at the point; two to be placed in the broadest part of the sole and one in the heel; and in the event of a man wearing any other spikes, either in toes or elsewhere, he shall be compelled either to remove them or provide other boots properly spiked, the penalty for refusal to be a loss of the stakes.

Rule 7—Both men being ready, each shall be conducted to that side of the scratch next his corner previously chosen; and the second on the one side and the men on the other, having shaken hands the former shall immediately leave the ring, and there remain until the round be finished, on no pretense whatever approaching their principals during the round, without permission from the referee. The penalty to be the loss of the battle to the offending parties.

Rule 8—At the conclusion of the round when one or both of the men shall be down, the seconds shall step into ring and carry or conduct their principal to his corner there affording him the necessary assistance, and no person whatever shall be permitted to interfere in his duty.

Rule 9—On the expiration of thirty seconds the referee appointed shall cry "Time," upon which each man shall

rise from the knee of his second and walk to his own side of the scratch unaided; the seconds immediately leaving the ring. The penalty for either of them remaining eight seconds after the call of time to be the loss of the battle to his principal; and either man failing to be at the scratch within eight seconds shall be deemed to have lost the battle.

Rule 10—On no consideration whatever shall any person except the second and the referee be permitted to enter the ring during the battle; nor till it shall have been concluded; and in the event of such unfair practice, or the ropes or stakes being disturbed or removed, it shall be in the power of the referee to award the victory to that man, who, in his honest opinion, shall have the best of the contest.

Rule 11—The seconds shall not interfere, advise or direct the adversary of their principal, and shall refrain from all offensive and irritating expressions, in all respects conducting themselves with order and decorum, and confine themselves to the diligent and careful discharge of their duties to their principals.

Rule 12—In picking up their men, should the second wilfully injure the antagonist of their principal, the latter shall be deemed to have forfeited the battle on the decision of the referee.

Rule 13—It shall be a fair "stand-up-fight," and if either man shall wilfully throw himself down without receiving a blow, whether blows shall have been previously exchanged or not, he shall be deemed to have lost the battle; but this rule shall not apply to a man who in a close slips down from the grasp of his opponent to avoid punishment, or from obvious accident or weakness.

Rule 14—Butting with the head shall be deemed foul, and the party resorting to this practice shall be deemed to have lost the battle.

Rule 15—A blow struck when a man is thrown or down shall be deemed foul. A man with one knee and one hand on the ground, or with both knees on the ground, shall be deemed down; and a blow given in either of these positions shall be considered foul, providing always that, when in such position, the man so down shall not himself strike, or attempt to strike.

Rule 16—A blow struck below the waistband shall be deemed foul, and in a close, seizing an antagonist below the waist, by the thigh or otherwise, shall be deemed foul.

Rule 17—All attempts to inflict injury by gouging, or

tearing the flesh with the fingers or nails, and biting shall be deemed foul.

Rule 18—Kicking, or deliberately falling on an antagonist with the knees or otherwise when down, shall be deemed foul.

Rule 19—All bets shall be paid as the battle money after a fight is awarded.

Rule 20—The referee and umpires shall take their positions in front of the center stake, outside the ropes.

Rule 21—Due notice shall be given by the stakeholder of the day and place where the battle money is to be given up, and be exonerated from all responsibility upon obeying the direction of the referee; all parties be strictly bound by these rules; and in future, all articles of agreement for a contest be entered into with a strict and willing adherence to the letter and spirit of these rules.

Rule 22—In the event of magisterial or other interference, or in case of darkness coming on, the referee (or stakeholder in case no referee has been chosen) shall have the power to name the time and place for the next meeting, if possible on the same day, or as soon after as may be. In naming the second or third place the nearest spot shall be selected to the original place of fighting where there is a chance of its being fought out.

Rule 23—Should the fight not be decided on the day all bets shall be drawn, unless the fight shall be resumed the same week, between Sunday and Sunday, in which case the referee's duties shall continue and the bets shall stand and be decided by the event. The battle money shall remain in the hands of the stakeholder until fairly won or lost by a fight, unless a draw is mutually agreed upon, or, in case of a postponement, one of the principals shall be absent, when the man in the ring shall be awarded the stakes. . .

Rule 24—Any pugilist voluntarily quitting the ring previous to the deliberate judgment of the referee being obtained shall be deemed to have lost the fight.

Rule 25—On an objection being made by the seconds or umpire the men shall retire to their corners, and there remain until the decision of the appointed authorities shall be obtained; if pronounced "foul" the battle shall be at an end, but if "fair," "time" shall be called by the party appointed, and the man absent from the scratch in eight sec-

onds after shall be deemed to have lost the fight. The decision in all cases to be given promptly and irrevocably, for which purpose the umpires and the referee should be invariably close together.

Rule 26—If a man leaves the ring, either to escape punishment or for any other purpose without the permission of the referee, unless he is involuntarily forced out, shall forfeit the battle.

Rule 27—The use of hard substances, such as stones or sticks, or of resin in the hand during the battle shall be deemed foul, and on the requisition of the seconds of either man, the accused shall open his hands for the examination of the referee.

Rule 28—Hugging on the ropes shall be deemed foul. A man held by the neck against the stakes or upon or against the ropes shall be considered down, and all interference with him in that position shall be foul. If a man in any way makes use of the ropes or stakes to aid him in squeezing his adversary he shall be deemed the loser of the battle, and if a man in a close reaches the ground with his knees, his adversary shall immediately loose him or lose the battle.

Rule 29—All glove or room fights to be as nearly as possible in conformity with the foregoing rules.
